Enhance Your TR Practice through the POWER OF THE HERD - Part 1

Join the HERD for an Equine Facilitated Learning (EFL) workshop designed for Recreation Therapists (RTs). Enhance your practice by acquiring professional development skills through experiential learning!

- create beneficial shifts with clients and co-workers by learning the impact of presence, non-verbal communication and connection
- acquire mindfulness techniques to use personally and to share with clients within work environments
- apply theory to practice by reflecting on your EFL workshop experience through the lens of Experiential Learning Theory, Attention Restoration Theory and the Leisure Ability Model

Please note: All activities are completed at ground level. Previous horse experience is not required to attend this workshop!

Date: Friday, May 8, 2020
